

BE IT THEREFORE RESOLVED that for the purpose of satisfying the LSP Modes of Inquiry, a student is required to successfully complete only one of the approved courses for each mode, irrespective of the major(s) of the student. This does not preclude a program from imposing additional restriction on courses for the purpose of satisfying a major or a minor program requirement.

BE IT FURTHER RESOLVED that the catalog indicate that courses used to satisfy the LSP Mode of Inquiry requirements do so regardless of other areas across the curriculum that may also require these courses.
